

PABLO J. AMICO

Lead Web Developer & Senior Front-End Engineer | React / Next.js / TypeScript | Shopify | WordPress | Technical SEO

Rosario, Santa Fe, Argentina | +54 341 720-6026 | pablosecuen@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior/Lead Web Developer with 10+ years of experience delivering revenue-critical web products across React, Next.js, Shopify, and WordPress. Currently provide technical ownership across a large US agency portfolio, covering custom front-end engineering, CMS and e-commerce architecture, technical SEO, performance, accessibility, integrations, infrastructure, QA, and production support. Deep Shopify experience includes Liquid, Online Store 2.0, Checkout Extensibility, UI Extensions, Shopify Functions, Admin GraphQL, embedded apps, SKIO, Recharge, and Klaviyo. WordPress expertise includes PHP, custom plugins and themes, Gutenberg, Elementor, Divi, Bricks, WPBakery, ACF, WooCommerce, AJAX, WP-Cron automation, structured data, migrations, security, and hosting operations. Strong product mindset: comfortable taking ambiguous client requirements from discovery through architecture, implementation, deployment, and measurable validation.

CORE EXPERTISE

Frontend: React 18/19, Next.js, TypeScript, JavaScript, Redux Toolkit, TanStack Query, Material UI, Tailwind CSS, SCSS, HTML5, CSS3
Shopify: Liquid, Shopify Functions, Checkout UI Extensions, Checkout Extensibility, Admin GraphQL, App Bridge, Shopify CLI, Online Store 2.0, custom apps, SKIO, Recharge, Shopify Flow, Klaviyo

WordPress / PHP: Custom themes/plugins, Gutenberg, Elementor/Elementor Pro, Divi, Bricks, WPBakery, ACF, WooCommerce, WP-CLI, Code Snippets/WPCodeBox, custom templates/shortcodes, AJAX, WP-Cron

SEO / Accessibility: Technical SEO, semantic HTML, JSON-LD / Schema.org, metadata, canonicals, redirects, XML sitemaps, robots.txt, llms.txt / GEO, Google Search Console, Ahrefs, Lighthouse, Core Web Vitals, ADA/WCAG

Backend / Infra: Node.js, Express, PHP, REST, GraphQL, PostgreSQL, Sequelize, Firebase, Docker, Vercel, Cloudflare, Akamai, Rocket.net, WP Engine, cPanel, DNS/SSL/CDN/cache strategy, CI/CD

Tooling: Git/GitHub/GitLab/Bitbucket, Jenkins, Jest, Vitest, Playwright, Webpack, Vite, Turbopack, Bun, Figma, Jira, Azure Boards, Slack

PROFESSIONAL EXPERIENCE

FOCUS DIGITAL | Lead Web Developer / Senior Front-End Engineer

Oct 2025 - Present | United States - Remote

- Own engineering delivery across WordPress and Shopify client properties, combining senior front-end development, technical SEO, e-commerce, QA, infrastructure, and production support for a high-volume agency environment.
- During a June-July 2026 review window, handled 373 URL-based deliverables plus 154 non-URL technical/QA actions across 35 client projects, with the highest complexity-adjusted workload on the development team.
- WordPress engineering: build reusable page/service/location templates, custom PHP/JS/CSS snippets, shortcodes, ACF-driven components, Elementor/Divi/Bricks/Gutenberg integrations, AJAX search/filtering, dynamic testimonial systems, and CMS administration tooling.
- Technical SEO & GEO: implement semantic HTML landmarks, heading normalization, image alt text, meta/OG data, canonical/indexation fixes, 301 redirects, XML sitemap and robots.txt controls, llms.txt / AI-bot directives, Search Console reindexing, and JSON-LD for Article, Service, LocalBusiness, FAQPage, ContactPage, and custom page types.
- Performance & accessibility: improve Lighthouse/Core Web Vitals through image optimization, lazy/deferred loading, script cleanup, cache/CDN tuning, layout stabilization, responsive QA, semantic markup, and ADA/WCAG-focused fixes.
- Automation & operations: developed PHP/WP-Cron systems to normalize coupon expiration dates and rotate monthly offers, plus admin-side manual refresh controls, debugging utilities, staging-to-production workflows, backups, migrations, security hardening, and hosting/DNS/CDN troubleshooting.

Selected Shopify engineering

- **HPN Supplements** - architected migration of legacy Shopify Scripts into a custom embedded app using React Router, TypeScript, Shopify Admin GraphQL, App Bridge, JSON metafield-driven configuration, and Shopify Discount Functions in Rust; supported authenticated admin tooling, promotion management, and Vercel deployment.
- **GetTruSupps** - audited and migrated the SKIO subscription experience across PDPs, bundles, landing pages, and program pages; centralized selling-plan configuration and ensured cadence, recurring pricing, discount messaging, and selling_plan payloads stayed synchronized.
- **HPN / GetTruSupps / ONE SOL / Ambrosia** - built a Checkout Step Tracker UI Extension that records checkout depth and traffic source as Shopify attributes, enabling richer Klaviyo abandoned-checkout segmentation and Shopify Flow automation without exposing PII or blocking checkout.
- Implemented and maintained subscription, bundle, cart, offer, and product-purchase experiences with Shopify Liquid, theme sections/snippets, custom JavaScript, Recharge/SKIO integrations, Checkout Extensibility, and storefront QA across desktop/mobile.

2025-2026 CLIENT / PROJECT PORTFOLIO

E-commerce / Shopify: HPN Supplements, GetTruSupps, ONE SOL, Ambrosia, Rescue Legs

Home Services / HVAC / Plumbing / Electrical: Four Seasons Heating & Cooling, Dwyer Services, C&C Air, R.J. Groner, A/C Doctors, Lightfoot Mechanical, John Henry's Plumbing Heating & Air, Albiero Plumbing, NJ Pipe Doctor, Edelman Team, Lion Home Service

Healthcare / Legal / Professional Services: DocVA, DOCS Medical Group, Healing Psychiatry Florida, Antonelli Law, Eric Richman Law, AT Linea, Family Spinal Care, Geldwert Bunion Center, Private Prep

B2B / Finance / SaaS / Other: Focus Digital, Focus Investment Banking, Godlan, Done & Done Home / DDH Franchising, Total Fire Protection, SeamlessChex, Griffin Ford, ClinicMind, Keystone Global Partners, LatinoPro, Caudill's

MADEWELL | Senior Front-End Developer

Apr 2024 - Nov 2025 | United States - Remote

- Built and optimized enterprise e-commerce experiences with React, Next.js, TypeScript, and modern state/data patterns across PLP, PDP, cart, checkout, BOPIS, loyalty, search/typeahead, and analytics flows.
- Reduced page-load time by ~40% through code splitting and performance optimization; reduced image loading time by ~50% using responsive images and next-generation formats; contributed to a ~30% organic traffic improvement through technical/front-end SEO work.
- Led React 16 to React 18 migration work, introduced modern patterns, and mentored 5 junior developers; contributed to modular/micro-frontend architecture and long-term maintainability.
- Integrated Builder.io, Constructor.io, Loqate, Monetate, Salesforce, Merkle, HubBox, analytics/GTM, Akamai CDN, Jenkins CI/CD, and Jest-based automated testing.

DAC GROUP | Front-End Developer - IRIS Platform

Nov 2024 - Jul 2025 | Canada - Remote

- Built scalable, maintainable interfaces for IRIS, DAC Group's enterprise-to-local marketing intelligence platform, using React, Material UI, CSS, GraphQL, Azure, and TanStack Query.
- Implemented complex data flows, caching/server-state patterns, interactive planning workflows, charts, guardrails, budget constraints, CSV/XLSX interactions, and responsive UI behavior for global marketing teams.
- Focused on modular architecture, performance, accessibility, testing, and predictable state management while collaborating with cross-functional product, data, and engineering teams.

WAM! ESTUDIO CREATIVO | Full-Stack Developer

2023 | Argentina

- Led full-stack delivery and maintenance for client websites and applications, including WordPress/PHP, Node.js, databases, hosting, deployment, security, analytics, and performance.
- Developed custom WordPress plugins and integrations for WooCommerce, Elementor, and Divi; implemented stock systems, tracking, automated updates, migrations/backups, and client-facing support.
- Managed Linux/cloud environments, malware cleanup and hardening, PostgreSQL/Firebase migrations, and production reliability improvements.

AYTHEN | Tech Lead / Full-Stack Developer

2022 - 2023 | Barcelona, Spain - Remote

- Led a 20-person development team building RPA applications, no-code editors, code translators, Figma-to-code tooling, and real-time video applications.
- Planned sprints and technical direction, migrated front-end architecture to Next.js 13.5 App Router, and implemented Dockerized CI/CD, Jest testing, WebRTC, Socket.io, and automation workflows.

EARLIER EXPERIENCE

ATOMICO MARKETING | Founder / Owner & Front-End Developer

Jul 2017 - Jul 2021 | Rosario, Argentina

- Founded and operated a digital agency serving 15+ businesses, leading multidisciplinary teams and delivering end-to-end web, design, marketing, hosting, email, campaign, and operational solutions.
- Developed front-end solutions with React, Redux, JavaScript, Node.js, SQL, and Git while also managing client relationships, budgets, project execution, infrastructure, and team delivery.
- Client portfolio included La Gallega, Berkley Seguros, Petit Fours, Deubel, Vichino Shoes, Optica Schellhais, Back Up Jeans, Benevento Pastas, Vento Fit, Dismet LED, Magnus Trade Logistics, Plus Cargo, Rosario Cargo, and others.

BRANDO | General Manager

Jul 2015 - Jul 2017 | Rosario, Argentina

- Managed client negotiations, campaign planning, product supervision, focus groups, technology evaluation, budgets, operations, and team structure for a marketing agency.
